

SAKUTTO

anti stick scissors

NGL
NAKABAYASHI

Cuts **4x** times greater than standard scissors!

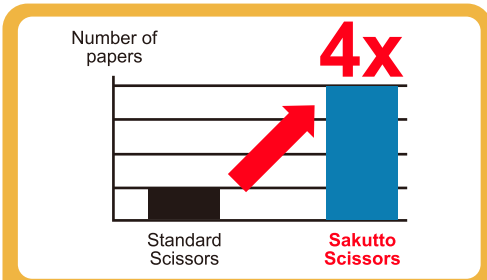

Collaborated with professional blade manufacture
Over 100 years of experiences in manufacturing high quality blades.

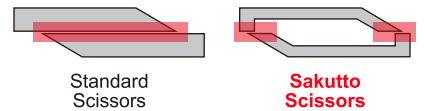

Anti stick blade

Leaves no adhesive residue when you cut masking tapes, duck tapes etc...

Precisely engineered
OVAL BLADE

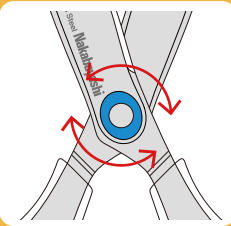

Rounded tips for safety

Anti Stick Blade

The two blades are joined in such a way that the cutting edges slide against each other and cut any materials without leaving any adhesive residue behind such as masking tapes, duck tapes, etc...

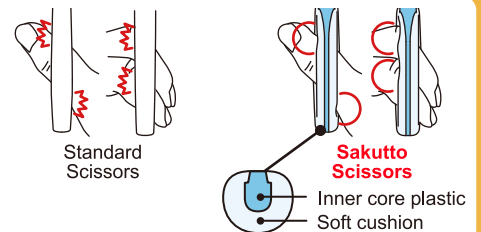

Pivot Point

The pin ensures that the opening/closing action of the scissors is done easily with minimum effort.

User Friendly Handle

Soft cushion handle for additional comfort.
