1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

During the six months under review (from April 1, 2022 to September 30, 2022), the Japanese economy experienced a recovery in consumption activity due to the psychological impact of a temporary decline in the number of people infected with COVID-19, but a new wave of infections from the Omicron strain from July and soaring raw material prices, as well as the prolonged situation in Russia and Ukraine, and the rapid depreciation of the yen in foreign exchange markets kept the outlook for the economy uncertain.

The environment surrounding the Company group (the "Group") continues to be challenging due to a weak yen and high material prices, and we are planning to revise our products and services due in part to the major change in lifestyles and corporate activities caused by COVID-19.

Under these circumstances, we formulated our third medium-term management plan (from April 1, 2021 to March 31, 2024), "add+venture 70" (Adventure 70). As conventional business models and processes change dramatically depending on the new normal and DX, we have set 70 new targets to increase corporate value. To achieve the plan, we are working to optimize the allocation of management resources and create synergies among business segments and Group companies as a whole. As a concrete policy required in the era of post-COVID, the Group aims to become a leading company in the "Life-related industry" (Note), an industry field that will play a central role in the future, and will advance initiatives to strengthen existing businesses and enter new businesses. Specifically, it refers to the following five fields: (1) health and medical care, (2) environment (including renewable energy), (3) life and welfare, (4) agriculture and (5) culture.

(Note) "Life-related industry" is a concept advocated by Professor Yoshinori Hiroi of Kyoto University.

Net sales decreased by 1.5% year on year. An operating loss was recorded due to a worsening cost of sales ratio caused by rising raw material prices, while ordinary profit also declined.

In addition, extraordinary income recorded ¥79 million, including gain on extinguishment of tie-in shares due to the absorption-type merger of unconsolidated subsidiaries, and extraordinary losses recorded ¥95 million, including loss on Anti-monopoly Act.

As a result, loss attributable to owners of parent was ¥132 million.

The Group's operating results for the six months under review are as follows.

Net sales	¥28,236 million	(Down 1.5% year on year)
Operating loss	¥158 million	(Operating profit of ¥297 million in the same period of the previous fiscal year)
Ordinary profit	¥151 million	(Down 74.2% year on year)
Loss attributable to owners of parent	¥132 million	(Profit attributable to owners of parent of ¥114 million in the same period of the previous fiscal year)

Operating results by segment are as follows.

(i) Business Process Solutions Business

The business process outsourcing (BPO) business was deemed to have committed an act in violation of the Act on Prohibition of Private Monopolization and Maintenance of Fair Trade (Anti-monopoly Act) in relation to tendering for Japan Pension Service on March 3, 2022, and was subject to a Cease and Desist Order and a Payment Order for a surcharge, so our designation was suspended for some government and public offices and municipalities for approximately two to eight months. Consequently, BPO-related sales have declined. In the library solutions business, outsourcing services, such as counter operations from public libraries, and the library binding business continued to decline due to designation suspension.

Sales of packaging materials such as paper containers and packaging were firm due in part to a heightened awareness of plastic waste reduction. We also acquired the exclusive rights to manufacture the world's first(*)

barrier packaging material for food products employing TiMELESS® gas venting technology, which eliminates the need for plastic valves, and began selling paper packages equipped with this valveless function and capable of displaying the paper recycling mark in July. For primary food packaging, the development of packaging for coffee beans has been promoted, as this is expected to be in high demand due to its degassing function.

Sales of corporate gift notebooks increased because business activities have increased with a decline in the number of people infected with COVID-19.

The performance of Hirota Shiko Co., Ltd., which became a consolidated subsidiary through an M&A in the previous fiscal year, contributes to the full year results.

Consequently, net sales in this business amounted to $\frac{14,102}{100}$ million (down 4.9% year on year), while operating profit amounted to $\frac{134}{100}$ million (up 67.0% year on year).

* TiMELESS® is a technology jointly developed by MIB Co., Ltd. (hereinafter "MIB") and NAGASE & CO., LTD.

The development of packaging materials that combine the three technologies of "TiMELESS®," "SILBIO BARRIER" and "BioPBS®."

(ii) Consumer Communications Business

Sales of airborne-reduction products and remote work-related products have run their course. Stationary items such as files and notebooks declined due to the spread of the Global and Innovation Gateway for All (GIGA) School Program.

In our Meguri-ing business which was started as a measure to support new tourism, sales of Goshuin-cho and Gojoin-cho stamp books recovered to pre-COVID-19 levels as people again began to move around.

In addition, sales of stuffed toys by Sunlemon Co., Ltd. remain high, particularly for theme-park related toys and for licensed products that are popular with younger generations. We will continue to strengthen plans for products that can be provided to new sales channels.

However, we recorded an operating loss due to rising raw material prices, the rapid depreciation of the yen and the worldwide shortage of semiconductors.

The performance of Sunlemon Co., Ltd., which became a consolidated subsidiary through an M&A in the previous fiscal year, contributes to the full year results.

Consequently, net sales in this business amounted to \$9,984 million (up 3.1% year on year), while operating loss amounted to \$218 million (operating profit of \$227 million in the same period of the previous fiscal year).

(iii) Office Appliances Business

Maintenance and inspection operations and document shredding outsourcing services performed well as attendance rates at the office continue to recover.

KAGUKURO Co., Ltd., which is operating the e-commerce business for office furniture, had firm sales but the profit ratio deteriorated due the rapid depreciation of the yen and soaring purchase prices.

Consequently, net sales in this business amounted to \(\frac{\pmathbf{43}}{374}\) million (up 0.3\% year on year), while operating profit amounted to \(\frac{\pmathbf{449}}{49}\) million (down 74.1\% year on year).

(iv) Energy Business

Wooden biomass power generation and solar power generation performed well.

Consequently, net sales in this business amounted to \\$755 million (up 1.1% year on year), and operating profit amounted to \\$55 million (up 88.9% year on year).

(v) Others

The Vegetable Plant Business and the Garlic Farm Business, etc. posted net sales of ¥19 million (down 41.0% year on year) and operating loss of ¥10 million (operating loss of ¥24 million in the same period of the previous fiscal year).

(2) Explanation of Financial Position

[Assets]

Current assets decreased by \$1,084 million from the end of the previous fiscal year to \$29,114 million. This was mainly due to decreases of \$1,959 million in notes and accounts receivable - trade and \$1,437 million in cash and deposits, despite increases of \$1,377 million in merchandise and finished goods, and \$824 million in raw materials and supplies.

Non-current assets increased by ¥165 million from the end of the previous fiscal year to ¥28,190 million. This was mainly due to decreases of ¥164 million in investment securities and ¥113 million in goodwill, despite increases of ¥293 million in machinery, equipment and vehicles and ¥190 million in deferred tax assets.

As a result, total assets as of September 30, 2022 decreased by ¥919 million from the end of the previous fiscal year to ¥57,305 million.

[Liabilities]

Current liabilities decreased by ¥2,568 million from the end of the previous fiscal year to ¥16,570 million. This was mainly due to decreases of ¥2,166 million in short-term borrowings and ¥402 million in notes and accounts payable - trade.

Non-current liabilities increased by ¥1,989 million from the end of the previous fiscal year to ¥12,571 million. This was mainly due to an increase in long-term borrowings of ¥2,077 million, while retirement benefit liability decreased by ¥59 million.

As a result, total liabilities as of September 30, 2022 decreased by ¥578 million from the end of the previous fiscal year to ¥29,141 million.

[Net assets]

Total net assets decreased by ¥340 million from the end of the previous fiscal year to ¥28,163 million. This was mainly due to a decrease of ¥461 million in retained earnings, despite an increase of ¥122 million in non-controlling interests.

Due to a decline in both net assets and total assets, the equity ratio as of September 30, 2022 was 46.1%, the same as at the end of the previous fiscal year.

(3) Explanation of Consolidated Earnings Forecasts and Other Forward-Looking Information

For the full-year earnings forecast for the fiscal year ending March 31, 2023, the earnings forecast announced in the "Consolidated Financial Results for the Year Ended March 31, 2022 (Based on Japanese GAAP)," issued on May 13, 2022 has been revised. For more information, please see the "Notice Concerning Revision of Consolidated Earnings Forecasts" issued November 9, 2022.

(Changes in Accounting Policies)

(Application of Implementation Guidance on Accounting Standard for Fair Value Measurement)

The Company has applied the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31, June 17, 2021) from the beginning of the first quarter of the fiscal year ending March 31, 2023, and it has applied the new accounting policy provided for by the Implementation Guidance on Accounting Standard for Fair Value Measurement prospectively in accordance with the transitional measures provided for in paragraph 27-2 of the Implementation Guidance on Accounting Standard for Fair Value Measurement. This change did not have a material impact on the quarterly consolidated financial statements.
