

NCL Shredders

We, NAKABAYASHI, have been trying to make a growth strategy through challenging our new business and new products. As we have considerable experiences and know-how for shredder business in our local market, we decided to enter into overseas market.

Social concern as to the protection of confidential information is increasing in various countries. In addition to this, environmental care is becoming more and more important.

We would like to introduce you our environment-friendly products as below.
